HOW TO CREATE A TECH-READY HOME

A presentation on modern day technology geared for all ages/grade levels.

Research shows young children who spend more than 30 minutes a day on screens (like tablets), even if using educational apps, can experience decreases "equivalent to a full grade level" in reading skills, comprehension levels and emotional regulation compared to peers who spend that same time playing outdoors or reading (or being read to) from paper books.

All parents, grandparents and guardians at Long Beach School District are strongly encouraged to attend an upcoming presentation from the Protect Young Eyes speakers.

- Understand how young, developing brains are impacted by today's technologies
- Learn how to use hardware and software to keep your children safe
- Discover ways to ensure your family is prepared, balanced and protected online

**** Due to the some content referencing internet danger, this is an adult only presentation as it may be too sensitive for children.**

CHILD CARE WILL BE PROVIDED IF NEEDED **

Saint & Virtue of the Month

St. Martin de Porres - Kindness

Dear Jesus,

Help me to notice the needs of others today. I am often caught up in my own thoughts and only pay attention to what I need.

Help me to be more aware of others, and grant me the desire to help if they need me. Amen.

expressing genuine concern about the well-being of others, anticipating others needs

-Do I notice when others around me need help?

-Do I offer to help, or do I simply pretend I don't notice?

Sounds Like

"Do you need help with that?"
